About Ascent Consulting Services Private Limited

People Management is a key business function that has a direct impact on competitiveness, efficiency of operations, and long-term profitability of an organization. Which is why, organizations have been investing enormous time and resources in the HR function, which diverts focus from the organization's core business.

Ascent Consulting precisely addresses this anomaly through its 360 degree HR Management Solutions that transform the HR service delivery. While these solutions accomplish cost reduction, greater efficiencies and improved quality, our larger effort is aimed at improving organizational efficiency and not just creating incremental change.

AscentHR has achieved this by building the right mix of skills and knowledge required for an effective Outsourced HR Management function. Our solutions employ a matrix of technology, domain expertise, streamlined business workflow, and highly skilled people to create, tangible, measurable, performance improvements throughout the client's organization.

AscentHR is recognized as one of the most trusted partners in this business by clients around the world. We work as an extension of our client's business. Our management and delivery teams are passionate about building efficiencies in our client's business.

Our bespoke technology solutions for HR Needs are unique in the industry and are backed by the best of industry practices in Data management, Information Security, Data Privacy, anywhere access and very user friendly processes.

At AscentHR automation of all the functions is achieved through a robust, configurable and comprehensible **HRMS** application which caters to diverse organizational strategies and standards.
