Application Login

Once employee access the URL provided in the welcome mail with login credentials for accessing the portal, below show screen appears, where employee needs to update their User Id (by default their employee code) and the password shared in welcome mail.

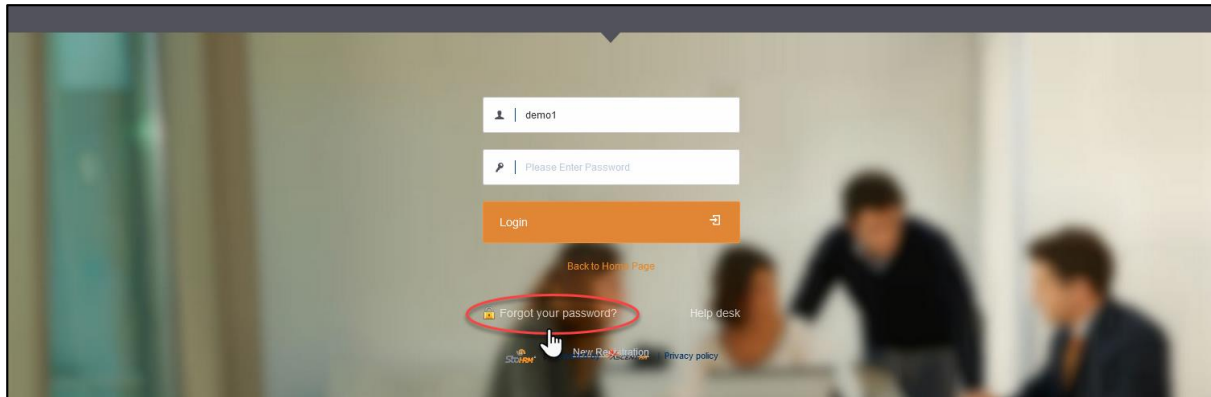

A screenshot of the application login interface. It features a dark header bar at the top. Below it, a white input field contains a user icon and the text 'Demo1'. Underneath the input field is an orange button with the text 'Next' and a right-pointing arrow icon. A mouse cursor is shown clicking on the 'Next' button. The background is a blurred image of a person.

Once employee clicks on Login button for the first time, after inserting login credentials, system takes them to the registration page, where employee needs to register themselves by updating below mentioned details:

- Date of Birth
- Setting of Security Question & Password
- Setting password of their own choice.
- Mobile Number.

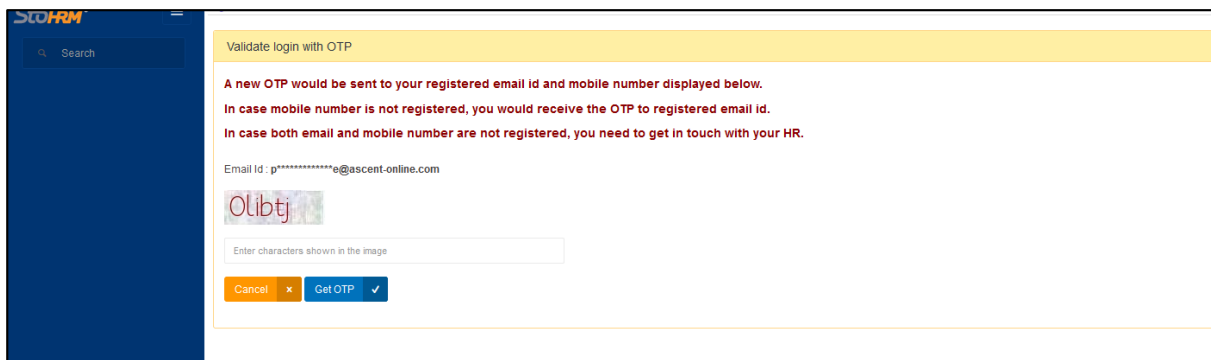

A screenshot of the 'User Registration' form. The form has a yellow header bar with the text 'Enter your information below to complete security check'. Below this, there are several input fields: 'Old Password' (masked with asterisks), 'New Password', 'Confirm Password', 'Date Of Birth', 'Security Question' (a dropdown menu with 'Select' as the current selection), 'Answer', and 'Mobile No'. At the bottom of the form, there are two buttons: 'Cancel' and 'Submit'. A CAPTCHA image with the text 'l1x1xm' is visible on the left side of the form.

The security details set on this page helps employee in the scenario of forgetting password. In case employee forget the password set while registration, employee need to click on below provided option of Forgot your password.

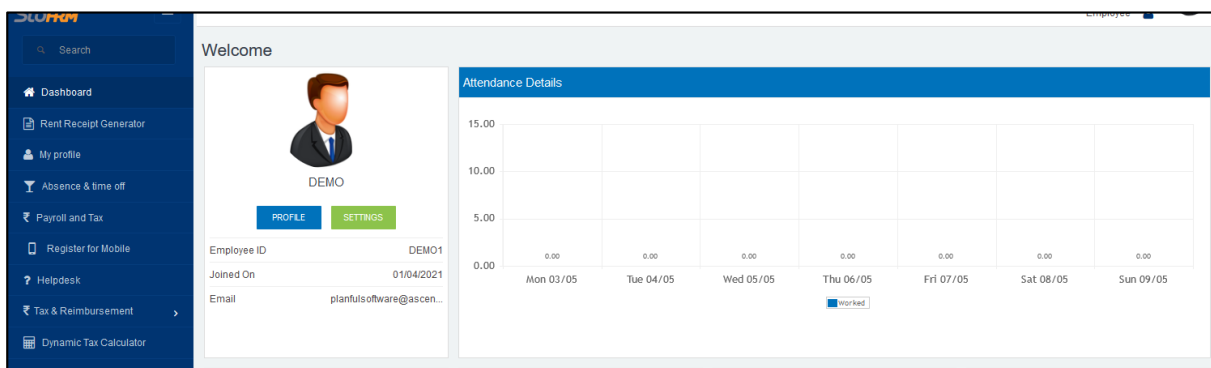

After clicking on Forgot your Password link, system will get ready to send an OTP to employee's official emailed/registered mobile number, which further help them with login.

Process of registering mobile number is explained later.

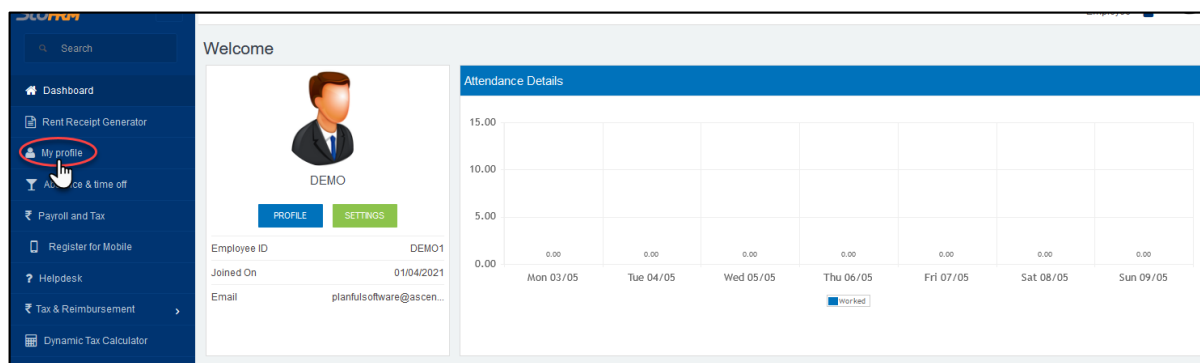

When employee logs in to the application, below is the screen that gets displayed. This page is called as Dashboard where employee will be able to view their basic profile details and Query status as shown below.

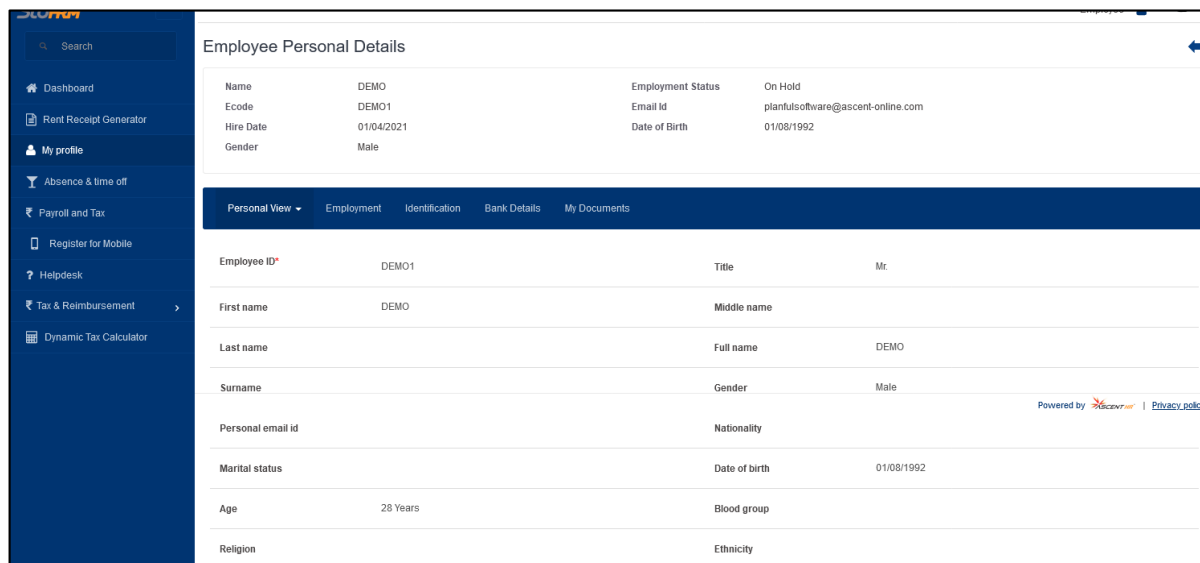

Profile View

For accessing profile details, employee needs to click on the below highlighted section of My Profile from the top left cornered fields available.

When employee clicks “My Profile” field, below shown screen will appear with different tabs of Personal details, Employment details, Identification details and the Bank details.

Personal View covers the personal details of employee like their name, ecode, Date of Birth, Age, Gender etc. This tab is not editable and in case any of the details requires correction/modification, employee needs to update the same to their internal HR team.

The next tab covers employee’s Employment related details like their designation, department, date of joining, official email id, etc. Employee will not be able to add or edit any details in their current employment.

Any changes (if required) are to be notified by employee to his/her internal HR.

Dynamic Tax Calculator

Employees have an option called Dynamic Tax Calculator which helps them plan their investment for tax exemption purpose. For using this tool, employee should click on the below highlighted option:

Once Dynamic Tax Calculator is clicked upon, below shown screen will appear where employee can insert his investments (where an all View/Modify option is available), and system will auto calculate tax amount as per the updated investments.

Income Tax Calculator

This tax calculator can be used to calculate the approximate tax payable by salaried individuals. Any update done in this calculator will not impact the tax computations. For getting exemption, investments are to be declared in Investment Declaration tool, and actual tax computation will be seen in Tax Computation Sheet.
